

SUMMARY

The company was established in late 2012 by Christopher Eyers as an engineering consultancy specialised in facade design, engineering and procurement management.

Christopher Eyers has for the last 20 years been working in all aspects of design, engineering and procurement of specialist structures. He worked in various roles from designer to director, on behalf of specialist contractors, main contractors and consultants. Between 2004 and 2009 he was responsible for directing the Caribbean and Asia offices of an international consulting engineering group and developing their international facade group.

The company has its head office in St Martin, French Antilles and a representative office in Hong Kong. We currently have 5 members of staff and work closely with associated companies and contractors in Trinidad, New York, London and Hong Kong to ensure that we are able to deliver multiple projects of different scales. On average the relationships with our key associates have been developed over 10 years or more. Our associates are all recognised specialists in their field.

SCOPE OF SERVICES

Consulting

DESIGN DEVELOPMENT

STRUCTURAL ENGINEERING

ENVIRONMENTAL ENGINEERING

TENDER DOCUMENTATION

PROCUREMENT MANAGEMENT

TENDER INTERVIEWS

STRUCTURAL TESTING

Procurement management

PROJECT MANAGEMENT

QUALITY CONTROL

BILLS OF QUANTITY

SYSTEM COSTING

CONSTRUCTION DOCUMENTATION

FACTORY INSPECTIONS

SITE SUPERVISION

SPECIALIST SKILLS

Design and engineering of structural glazing, standard and ventilated cavity curtain walls, window wall and cladding systems including; 3D modeling, FEM analysis, detailing, detail calculations, thermal and environmental analysis, technical specification.
